***"Most prominent manufacturer & exporter of  
solar energy systems"***

## About Us

We are delighted to introduce ourselves as most prominent manufacturer & exporter of solar energy systems from India. We laid the foundation of **AARA ENERGY INNOVATIONS in September 2012** and leading towards **our mission of optimum use of solar energy with reliable & affordable systems for clean & green world.**

We design **customised solutions** as per client's requirement to provide **right product at right price** & we always strive for that. **We are not only solar equipment manufacturer or supplier but we are system integrator with strong technical know-how & a team of dedicated, skilled and experienced professionals.**

'**Customer satisfaction**' is our prime motto & we always **endeavour to make it 100% through** our services, for the same reason **we are associated with leading installers, distributors, utilities & developers**, suppliers in solar energy market **which ensures best bought out items & prompt service every time.**
